# 1991 Midwinter Meeting Committee Reports

## Conference Program Planning- San Francisco 1992

### College Science Librarians Discussion Group

The discussion, "Using Student Staff in College  
Science Libraries," presented by Gladys M. ...

The San Francisco program, "Hard to Access Sci-  
ence Information," will be a general discussion of fac-  
tors influencing accessibility followed by three or four  
presentations on issues affecting access to scientific  
information. The program session will include a dis-

**Membership Committee**

**Planning Committee**

Thomas Dowling will start learning how to up-  
date the membership database and issue lists for SMC

The Planning Committee submitted recommenda-

with the charge a deadline for completion of the task.

5) Subject and Bibliographic Access to Science  
Materials. Consider adding the Task Force on Con

es at the University of Arizona discussed their shift  
from online searching to CD-ROM searching.
