TAKEAWAYS for local, state and national
public o cials, and potential partners

- Libraries in Utah and nationally support jobseekers, entrepreneurs, and local businesses.

who live in West Millard County more widely. One local resident, with little to no computer knowledge, came to the library looking for help in creating a resume. Library sta helped her use an online template to successfully create a resume, and she left feeling hopeful that she would be able to obtain the job he was applying for.

Building digital skills

Libraries across the country provide critical connectivity to high speed internet access and computers—a service which can be especially important in rural communities where broadband access still lags. According to BroadbandNow, just 58.6% of Millard County residents have access to high-speed internet—the fourth-lowest percentage of all counties in Utah. Delta City, meanwhile, has less than 61% broadband coverage. In comparison, 95.6% of Utah residents as a whole have access to high-speed wired broadband.

Many people visit the Delta City Library to use the library's broadband network and to receive help using digital devices or to navigate online tools, digital services, and applications for programs like Medicaid and Medicare
