

# for your prescriptions

A new way to help lower your prescription drug costs.

It looks at the medications  
you take and finds options that may save you money.

It also automatically lists any  
medications you've filled so everything's in one  
place. It's like having your own personal  
pharmacist right at your side.

“My new  
medication works  
just the same,  
and  
, (507=; t i v App-

Thanks Rx Savings  
Solutions.”
