

we

Member Profile/Business Card. Each member will have a profile, with the following fields:
Username (this is the only required field and will be auto-generated from ALA's Association Management System -iMIS)

Image (.gif or .jpg)

Email address

Mailing addresses

Web URL

IM screen names (Yahoo!, AOL, ICQ, etc.)

ALA Community online status

Unit, section, and group memberships (auto-generated from ALA's Association Management System - iMIS)

The email address and mailing addresses will be pulled from iMIS.

White Board. Group members are enabled to work together on a common document using file sharing and software tools.

Online Status of Members/Who's Online. Members will have the option to display a list of community members currently logged into ALA's Online Communities, with option to initiate private/individual or community online chats.

Help. On every page of the community, a link to online help will be available. Online help will include contact information for ALA staff as well as documentation for using ALA Online Community features.

The system will have the ability to integrate RSS.
